Product

Description

Monoclonal anti Mouse Submandibular gland renin (110)

Product: Monoclonal mouse anti-mouse submandibular gland renin.

Lot No: 110

Form: Lyophilized IgG fraction

Description

This antibody is a IgG1 directed against mouse submandibular gland renin. It recognizes mouse renin on cryostat or paraffin sections of the submandibular gland and the kidney. It can be used for immunopurification of renin and for radioimmunoassay of renin.

Storage

Reconstitute with 200 µl bidistilled water. Freeze in small aliquots (e.g. 1 or 10 µl) and keep at -80°C. Avoid repeated freezing and thawing.

Dilutions

Immunohistochemistry: 1:5'000 to 1:10'000. Best dilution to be found by dilution series.
Radioimmunoassay: 1:5'000
